SUPPRESSION FOR *HIGH-RISK & HIGH-VALUE* APPLICATIONS

THE RIGHT FIRE SUPPRESSION AVOIDS CAUSING MORE DAMAGE THAN THE FIRE ITSELF. Not all fires should be extinguished using water and sometimes water can cause as much damage as the fire itself. Keystone matches the extinguishing agent to the hazard as a critical part of the system design.

SUPPRESSION SYSTEMS

Clean Agent

Clean agents are colorless, odorless, electrically non-conductive, leave no residue, and are safe for humans. Clean agents interrupt the chemical chain of fire, accelerating suppression and absorbing heat, without damaging sensitive equipment

CO₂ Systems

CO₂ is an odorless, colorless, inert gas that extinguishes fire primarily by reducing oxygen that supports combustion in or around the hazard. It can be designed to flood a space, or to be applied locally to a specific hazard or surface.

Wet Chem Kitchen Systems

Wet chemical agents overcome flames quickly and clean up easily. A wet chemical fire suppression system reduces downtime better than a dry chemical system.

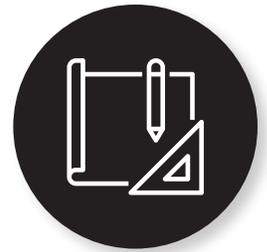

Dry Chem Industrial Systems

Dry chemical suppression systems are a great choice for areas where sprinklers and water are not preferred. They are specifically designed to meet the unique demands of rigorous industrial hazards typically found in manufacturing environments.

Micro-Environment Systems

In small spaces where electrical equipment and mission-critical processes reside, Keystone offers suppression systems from Firetrace™. The system is completely self-contained and is easy to install and maintain — think of them as automatic fire extinguishers.

We are a regional provider of life safety systems and services with its headquarters in North Wales, PA. Our normal service area encompasses Southeastern Pennsylvania, Southern New Jersey, and Northern Delaware.

FIRE PROTECTION

- Alarm and Detection
- Sprinkler Systems
- Suppression Systems
- Fire Extinguishers
- Life Safety Equipment
- MIL-SPEC Parts
- Bi-Directional Amplifier (BDA)

SECURITY

- Access Control
- Video Surveillance
- Intrusion Detection
- License Plate Recognition
- Correctional Facility Control Systems
- Process Control & Quality Assurance

COMMUNICATIONS

- Mass Notification
- Lobby Entry Systems
- Intercom & Master Clock
- Nurse Call
- Digital Signage
- Room Scheduling Systems

SOUND & AV

- Video Presentation Systems
- Room Automation
- Conferencing Systems
- Sound Masking/Speech Privacy
- Business Music Systems
- Public Address & Paging
- Large Venue Sound Systems

SERVICES

- Feasibility Studies
- Specialty Testing
- Security System Audits
- Inspections & Maintenance
- Project Management
- System Design & Engineering
- Full Service Installation
- Emergency Repairs
- Service Agreements
- Networks (Wired & Wireless)
- Server Technologies
- Infrastructure Monitoring
- Central Station Monitoring
- Room Acoustics Assessment
- User Training

INDUSTRIES SERVED

- Commercial Kitchens
- Education & Large Venue
- Manufacturing
- Property Management
- Warehousing
- General Contractors
- High-Value Assets
- Energy & Utilities
- Houses of Worship
- Parking Enforcement
- Healthcare
- Law Enforcement
- Correctional Facilities
- Municipalities
